Why CSCCI

Independent Opinions:

We are not a software reseller or implementer.

Software Research:

We have reviewed and analyzed many of the products on the market today, for current and prior clients.

Proven Process:

A detailed process and methodology to understand you're business requirements, now and future to ensure the software you implement will grow with your business.

Experience:

Combined over thirty years of GrowthPower experience as both users and developers. Our team has worked as end users, developers for the standard product, consultants, implementers and trainers. We know GrowthPower from all points of view.
