

## ***SAVE MONEY ON YOUR GROWTHPOWER SUPPORT CONTRACT AND INCREASE YOUR SUPPORT LEVELS***

At CSCI we offer you a support package saving you up to 50% off your standard Infor support contract, while providing you with the level of support you expect.

Our services include:

- custom programming and development
- ODBC connectivity new custom screens to enhance the data presentation to your users
- System Integration
- Dedicated Support Representatives.

The staff at CSCI has worked with GrowthPower since release 7.06 as developers, users and support specialists. With over 20 years of manufacturing software experience we have the knowledge to assist you in evaluating your current implementation, recommend enhancements, and select new software packages.

We are available to assist you with an open minded outside evaluation of your companies utilization of your current manufacturing packages; provide process improvement and training to help your company maximize your software investment resulting in better customer satisfaction through on time deliveries and commitment dates; reduce inventory and other costs through improved requirements planning.

***How much money do you want to save in your IT Budget this year?***
